We feel called upon to express our unqualified denial of the charges made against us as an individual or collectively.

We totally deny the accusations of the Mayor (and any part in a reorganization, appointing or subscriptions of money for purposes of running the city) and also deny that we acted, in any manner, or assisted in any as described by the Mayor.

We cannot lose even a speck of our honor and respect as represented herein made in this manner, and we are taking no action in any way to defend our honor.

The Mayor further says
machinery, the most com-
monplace in the world, is
used, under the delusive in-
fluence would be successful
